## **PPW CHAINSAW MASSACRE**

Boris delighted and frightened with his demonstration on how to start with a log and end with a pile of shavings and a bowl shaped chunk of wood. Prior to the chain saw party, Boris reviewed some of his home fashioned tools and how to make them. He continued through with the log sawing operation and mounting the blank on the lathe. During the roughing out of the blank he had to sharpen. To hone or not to hone? It is a personal preference. the bowl took shape and suddenly the evening was over. Many thanks to Boris for the excellent demonstration. Also, a great thank you to all who helped clean up, put chairs up and in general make this a great club.

## **LARRY FOX GOES DEEP**

In June, Mr. Fox, a professional turner, will show you how to make this hollow vessel from firewood pine and crushed rock. Larry recently completed Trent Bosch's class on hollowing and is ready to share his techniques with us.

## **UPCOMING DEMONSTRATIONS.**

July 6 will be Chris Stott **courtesy** of the Rocky Mountain Woodturners.

Saturday July 15, Soren Berger all day at Woodcraft. \$10 members \$20 non members

August 3 will be Robert Deffeyes on segmented wood turnings.

September will be John Tulloch on how to contact demonstrators and book them for tonight

## **THE PERPETUAL BOWL RAFFLE**

Wayne Hume drew the winning raffle ticket and took home this cedar flute by David Barnes. We are hoping for a concert next month. Wayne will bring a turning next month for the raffle.

The perpetual bowl raffle is a great way to use up that wood you found along Fountain Creek that your hiking companion carried home for you.

Remember, the first ticket drawn at the raffle wins the perpetual bowl. That winner may decline the opportunity to create the next Perpetual Bowl

# MAY SHOW AND TELL

Boris's table of delights. The rough spalted bowls have been in bags for storage for a long time. The warped bowls were finished while wet and allowed move. His tools are modifications of common designs that he has built. I liked the carbide tipped router bit as a scraper mounted in a heavy steel handle. No vibration there.

Torgerson vase or beer stein with really cool base. Texturing by Sorby texture tool and multi layers of finish on and rubbed out.

Ralph Taylor's first bowls. Beetle kill pine, courtesy of Larry Fox who wants the red streaked log returned. Good shape and tool control.

Jim Carey, mesquite and turquoise inlay pepper grinder.

Dale Scott gerbil urn with sculpted feet. Maple and dark wood.
