FEBRUARY demonstration:
Warm up to decorating with Robert Brewer

Robert will expand his mini-demo from June 2014 to a more extensive look at ways to use an airbrush on turnings.

No airbrush yet? No problem. There will be plenty of good ideas for use of color in your work that can be applied with a variety of tools in addition to the airbrush.

Bring your camera and take home some great ideas!

WOOD FOR BEGINNERS

In addition to the wood available in the raffle every month, the Club has just received several bushels of great 2x2" pine sticks for warming up at the lathe with a 'practice stick.' Thanks to Dr. Bob and Juergen Schleicher for rounding up this wood for mentoring sessions.

DOIN' the DUES

Pikes Peak Woodturners are a chapter club of the American Association of Woodturners. Think of us as a division of the larger organized community of woodturners in North America.

Our \$25 dues are payable to PPW. Vic Vickers will be happy to collect these dues at any meeting. We like to have dues in hand in January and February so that we can plan our club's expenses for the year ahead.

The AAW dues are payable online at woodturner.org. They are \$55/year, which earns access to AAW resources online, as well as a subscription to American Woodturner, the only magazine about woodturning currently published in the United States.

As an AAW member, you are eligible to apply for grants. Several of our members have received grants over the years, and the Club also received one to upgrade our cameras several years ago.

ppwoodturners.org

Who Ya Gonna Call?

Club mentors can give basic help with tool control; some can visit your shop to see how you work.

You may have to pay for help with specific projects.

Dr. Bob Gibbs--coring, turning, wood for sale, too!
488-9487

Dennis Korth--teacher-coach
634-1260

Tony Bevis--a professional turner 660-8305

Juergen Schleicher a professional turner 540-991

Dennis Liggett-- a twistwork specialist, teacher; 481-8754

Dick Breckon--our club's founder; 597-9718

Vic Vickers --pen specialist, 683-3350

Scott Longberry --494-1265

Robert Brewer --640-5235

Take the initiative, and call these folks when you need help!

THREADED INSERTS

--use for any vessel or box that needs a secure lid-- mount the ring insert in the vessel; mount the disk insert in the lid --

Hard maple holds threads; 10 tpi

Outside x Opening/Price
3 5/8" x 3" / \$16.98
3" x 2 3/8" / \$14.98
2 1/4" x 1 5/8" / \$12.98
1 3/4" x 1 1/4" / \$10.98

MILO SCOTT
719-360-9821

FOR SALE: Famous Cripple Creek Turquoise, not stabilized nor colored; this is the real stuff right out of the ground; clean and packaged rocks...Rocks..\$12/oz ...Crushed assortment (1 pkt each powder, medium flakes, large chips) \$15/oz...a perfect mix for inlay with CYA or epoxy...call Larry 719-686-9883.

end of JANUARY 2015

TRAINING AVAILABLE IN COLORADO

Our mentoring sessions are just the beginning of learning to turn with more experienced woodturners. We are fortunate in Colorado to have hands-on instruction with a variety of teachers. Here are some of the opportunities:

ROCKY MTN SCHOOL OF WOODTURNING with Lee Carter in Ft. Collins: Excellent foundation for tool use, all levels. New this year: casting and turning pewter for turning enhancement, Feb 24-26. Intermediate class Mar 10-12, Advanced Mar 24-26. \$300/class Call 970-221-4382

TRENT BOSCH (Ft. Collins): Small classes for 3 days, using Trent's tools and lathes. All levels. New this year--using the Visualizer equipment. Next open class in May. TrentBosch.com

ANDERSON RANCH: Summer 5-day classes in Snowmass; different levels available. New this year: Nick Cook - Turning for Food, July 13-17. AndersonRanch.org

Red Rocks Community College in Arvada and Lakewood of-

ppwoodturners.org

fers a Fine Woodworking Associate Degree with woodturning classes. Request their catalog: rrcc.edu Class is scheduled after students sign up.

MICHAEL ROPER teaches at Red Rocks CC, Denver Rockler, and in his shop in Evergreen: roperwoodturning.com

KEITH GOTSCHALL teaches from his studio in Salida. KeithGotschall.com

WOODCRAFT DEMOS and CLASSES:

Dennis Liggett will demonstrate the upside-down salt shaker January 31st; class available on April 18th.

Other classes taught by staff at the Woodcraft store.

Personal Instruction with Club Mentors for Fee

Steve DeJong, in your shop-- help with tools, projects, shop layout 303-829-0246

Dennis Liggett, in his shop, your choice of topics--skew, cutting threads, twistwork, other projects 481-8754

Robert Brewer - turning, air-brushing, piercing & what ever for \$20.00 an hour Plus travel time one way in your shop 640-5325

Woodturning Classes by Larry Fox of Foxy Woodz

My beginners class can be up to 4 students on 4 different variable speed lathes: Powermatic 3520, Jet 1642, Nova 1624, Jet 1442. This is a one day class from 8 AM to 5 PM with lunch included. Each student will make two bowls: a round edged bowl and a natural edged bowl. The cost is \$150.00 and you will go home with two completed, finished and polished bowls.

My intermediate class is an inlay and outlay class. The prerequisite is that you already know how to turn a bowl. In this class you will again make two bowls: a round edge and a natural edge. The round edged bowl will be "outlaid" with turquoise around the top edge and the natural edge will have an "inlaid" turquoise design. This is a one day class from 8 AM to 5 PM for a cost of \$165.00 including lunch.

You will go home with a completed, finished and polished outlaid bowl and an inlaid bowl.

end of JANUARY 2015
Both of these classes are designed so that if you continue in woodturning, you have two bowls to compare your work to and if you don't ever turn again, then you have two finished pieces to admire for years to come.

I also do two specialty classes: coring and hollowing. In the coring class we use both the Kelton McNaughton and the OneWay coring systems. This is a 2 hour or so class at a cost of \$75.00. You will go home with 4 rough cored beetle-kill Ponderosa Pine bowls that are dried and ready for you to finish at home.

My hollowing class is 4 hours in length with a cost of \$100.00. Each person will hollow two vessels: a natural edged Ponderosa Pine and an Aspen vase. I have 4 different hollowing systems in addition to hand hollowing tools: Vermac, VicMarc, Monster and Trent Bosch including his TV monitor system.

I do not presently have a class schedule since I will be in Florida until the first of June. If you are interested contact me at:

larryfoxywoodz@gmail.com.

I'm available for class 7 days a week.

Good things happen by accident (sometimes), or, I've got my eye on you.

I just finished this walnut vase trimmed in cypress. The piece is in this orientation because I was doing a work-around of some cracking.

I did not notice anything unusual until I downloaded the pics of the finished project. This eye was looking back at me. This is not a reflection, this is actually in the grain and coloration of the wood. It is there but not as noticeable unless you look at the piece at an angle, which I guess is why I didn't see it while I was working on it. The light caught the piece just right when I took the picture. How fun is this?

Jim Feakes

Thanks, Jim, for sharing the excitement of a woodturning discovery with us!

SWAP MEET EVERY MONTH!

We have a table at the monthly meeting for folks with stuff to sell to other woodturners-- wood, tools, and smaller equipment. Please don't bring your old lathe!

Tony has greenwood sealer available to club members, and Dennis sells CA glue products at a reduced price.

Milo brings the threaded inserts, and Dr. Bob frequently has bowl blanks for sale.

This is a good chance to cash out stuff you don't use, and find a new treasure for your shop.

About the Maker Space:

Curious about using a 3D Printer? Check the [Pikes Peak Maker Space](#) for a schedule of events.

Scott Longberry has met with them, and we are welcome in our regular meeting space through 2015.

Forgot your cash for the raffle?
No cash for dues?

No Problem. Vic has a credit card reader for the club, so

WHAT'S IN YOUR WALLET?
